CV

Short resume:

I´m 40 years old and a experienced Technical Consultant, Configuration Manager, Infrastructure consultant and test consultant.

Over the past 12 years I have worked on the Microsoft platform with the implementation, configuration, workshops, development, training, test planning - including the development and management of test cases, test procedures, test environments and test data.

The last year I have worked for Region Zealand helping them with the implementation of digital communication toward the patients. Including tasks such as deployment and development management, workshops, defects, testing, documentation, operation assignment, etc. Within the last 6 years I have worked with several large public projects where I have been responsible for test planning, test cases, test procedures and test data.

Working with the test management I have been using many different tools and techniques such as HP Quality Center, Subversion, Jenkins, Excel etc. The environments I have been working in have required much attention on procedures, structure, ITIL, redundancy, failover and disaster-recovery procedures.

In the role as configuration manager, I have build up and been responsible for the control on the life cycle of releases. All from development to implementation, testing, training and in the end, to the releases onto the live system.

With the implementation, I have, in collaboration with various stakeholders (system architect, client, external suppliers, interface suppliers and external consultants), been responsible for the rollout of the server farm which included a development, testing, training and live environment.

Throughout my career I have taught all levels of users and project members and on the Digital Post project and the Regions project I have created training materials to train the trainers, the super-user and end user.

In addition, I put in a great effort to document my work and work processes to help the organization with overview project wise and for future needs.

Projects:

Year / Role	Description	Company
<p>Feb. 2014 - Marts 2015 (First estimate for 3 month)</p> <p>Technical project management</p> <p>Test/development management</p> <p>Deployment</p> <p>Technical consultant /Teacher/Support</p>	<p>Region Zealand DIPO - Digital Post and digital questionnaires</p> <ul style="list-style-type: none"> • Implementation of digital communication and the program DIPO in all of Region Zealand hospitals. • Test planning and execution of testcases on web applications. XenServer	<ul style="list-style-type: none"> • Management of installation, configuration, installation and daily operation
SubVersion	<ul style="list-style-type: none"> • Management of installation, configuration, installation and daily operation
MS SQL 2000/2005	<ul style="list-style-type: none"> • Full management of DB creation, backup, Maintenance Plans, Query Analyzer • DTS Import / Export, SSIS packages, etc.
IIS - Internet Information Server	<ul style="list-style-type: none"> • Good experience in setting up sites, app. Pools, security, etc.
Microsoft Server	<ul style="list-style-type: none"> • Super User on MS server 2003-2008-2010, AD, Sharing and Security, Exchange Server, Terminal Server, etc.
Microsoft Office	<ul style="list-style-type: none"> • Super User on Word, Excel, Visio, PowerPoint and Outlook
Network	<ul style="list-style-type: none"> • Can set up networking / wireless network, Firewall, VPN • Can configure DHCP, switch, client, etc.
VMware and ESX Server	<ul style="list-style-type: none"> • Good experience in setting up and using the medium level
XP/Vista/Windows 7/Windows 8	<ul style="list-style-type: none"> • Super User on installation, setup, optimization, etc.
Crystal Reports 11	<ul style="list-style-type: none"> • Good basic knowledge, certification and little experience
Adobe Photoshop CS6	<ul style="list-style-type: none"> • Good experience for graphic tasks on a medium Level

PROGRAMMING LANGUAGES	Description
SQL	<ul style="list-style-type: none"> • Uses it regular on a high-level
C++	<ul style="list-style-type: none"> • Developed several smaller programs in Borland Builder
X++	<ul style="list-style-type: none"> • Developed cargo module for Axapta 3.0
Visual Basic	<ul style="list-style-type: none"> • Developed several smaller programs. Some of them to Excel
C#	<ul style="list-style-type: none"> • Developed small applications and Web services
ASP	<ul style="list-style-type: none"> • Applied in the context of C # and VB
Linux	<ul style="list-style-type: none"> • Proxy server to handle analysis tools and various statistics to Internet searches • With associated lexer / parser for analyzing and editing HTML text files and a hash table for managing information
Small Talk	<ul style="list-style-type: none"> • Have used it daily for about 1½ years on a High-level
XAL	<ul style="list-style-type: none"> • Have used it daily for about 2 years on a high level

Education:

Year	Description	Educational institution
2001-2003	Computer Science (datamatiker) education	Niels Brock
1994-1996	Higher Preparatory Examination (HF)	Espergærde gymnasium

Certification and courses:

Year	Description
2005	Course Programming XAL 1, 2 and 3
2006	Certification System Consultant XAL / C5 ver. 2.10 (DK C5-00-0)
2006	Certification development XAL / C5 ver. 2.10 (DK C5-05-0)
2007	MS SQL Administrator course
2007	Syntax course in SQL 2005
2007	Certification MS CRM 3.0 Installation and Configuration
2007	Course in Crystal Reports 11
2010	C # .Net 3.5 Basic and Extended
